

Dear Salukis,

Hope the summer has been going well for you. We are looking forward to seeing you all again for Fall 2020 which is just a few weeks away. As you have been informed previously, we have been at work in determining the course delivery and adjusting the schedule based on size of the class, nature of the course content, and learning objectives.

**After reviewing your Schedule of Classes for Fall 2020, if you have any questions about your courses, please let me know how I can help.**

To begin, go to the updated [Schedule of Classes](#) and review the class delivery methods of the course for which you registered, or you are interested in taking.

### Definition of Delivery Methods for Fall 2020 Classes

The following are definitions of class delivery methods for Fall 2020. All courses will be offered in one of these four formats: in-person, hybrid, online scheduled and online anytime. These designations are visible in the schedule of classes so when you register you can choose classes that will best support how you learn. If you have already registered please check your personal schedule in [SalukiNet](#) to review changes in delivery mode and locations so that you can make registration adjustments if necessary.

#### Online, Scheduled

Meet online at regularly scheduled days and times. Interact live with your instructor and classmates in a virtual environment

#### Online, Anytime

Choose when it is convenient for you to learn without scheduled class times

#### Hybrid

Experience the combination of in-person classes and online learning in small class settings

#### In-Person

Attend class on campus, with mask, during specific times and days in small class sizes.

### Below are four examples of Course Schedules

Look under the headings *Time*, *Days*, and *Where*. For example, if the class has been converted to online delivery and it is scheduled there will be a day and time noted. The second example is for a class that is online delivery that can be completed anytime and there is no time and day associated with this class under the headings for *Time* and *Days*. Because both classes are online, there is no location associated with the class under the heading *Where*.

**Intro:Oral Communication - 62051 - CMST 101 - 003**

**Associated Term:** Fall 2020  
**Registration Dates:** Apr 06, 2020 to Aug 23, 2020  
**Course Drop (with full refund) date:** April 6, 2020 to August 30, 2020
